Business and Finance Pathway

Pathway Description

The Business and Financial Management Pathway is a [CTE](#) (Career Tech Education) course sequence that helps to prepare students in the fields of *money management, finance, stock trading, banking, office management, and administrative assistance.*

Skills learned in the class involve: basic accounting, business planning, hardware and technology tools for the trade, financial planning, and core economic concepts that apply to business ownership

The curriculum for the Business/Finance pathway comes from partnering with [ICEV](#), an online learning platform.
